Adebimpe Adetomiwa

Summary

Detail-oriented Data Analyst with extensive experience in data collection, management, and analysis. Proven ability to utilize data enumeration tools and techniques to deliver actionable insights. Strong organizational and problem-solving skills with a commitment to high-quality work. Seeking to leverage analytical skills and experience in a Data Enumerator role at Innovision Global Consulting.

Experience

Freelancer (Remote Online)

February 2019 – Current

Data Analyst

- Conducted data collection using tools such as ODK and Google Forms, and extracted data from flat files.
- Utilized SQL queries for data extraction and analysis, transforming raw data into actionable insights.
- Cleaned and categorized data sets, removing outliers and erroneous entries.
- Analyzed large data sets to identify trends and patterns and performed sentiment analysis on social media data.
- Created visually appealing and informative dashboards using Tableau for stakeholder presentations.
- Provided technical support and designed automated templates and databases.
- Designed ERDs and converted them to database schemas for effective data management.
- Managed databases for medium and large organizations.
